Overture Series devices offer a complete and automated management solution at an affordable price. This linear barcode system is an attractive and comprehensive parking access and revenue control ensemble. The equipment works in harmony with Overture Management System, offering a user-friendly, web-based back-office management system.

A solution for every Parking situation.

The Aria Series One product line is simple to install, simple to support, feature rich, and low cost. A single Aria Series One device can function as an entry, exit, or credit card pay station for complete flexibility. The devices are driven by cloud-based CVPS Software for a comprehensive back-office solution. Aria provides intuitive dashboards, user alerts, and system management with a built-in call center and mobile payment solution.

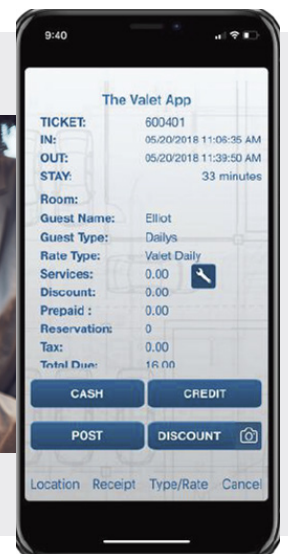

The Amano MSM Sprite terminal powered by Metric is a futureproof solution designed with the needs of smart cities in mind. The Sprite parking terminal has been completely reimagined, combining enhanced functionality with a sleek design. The terminal offers greater security, enhanced power management, a rotatable solar panel, and a customizable keypad.

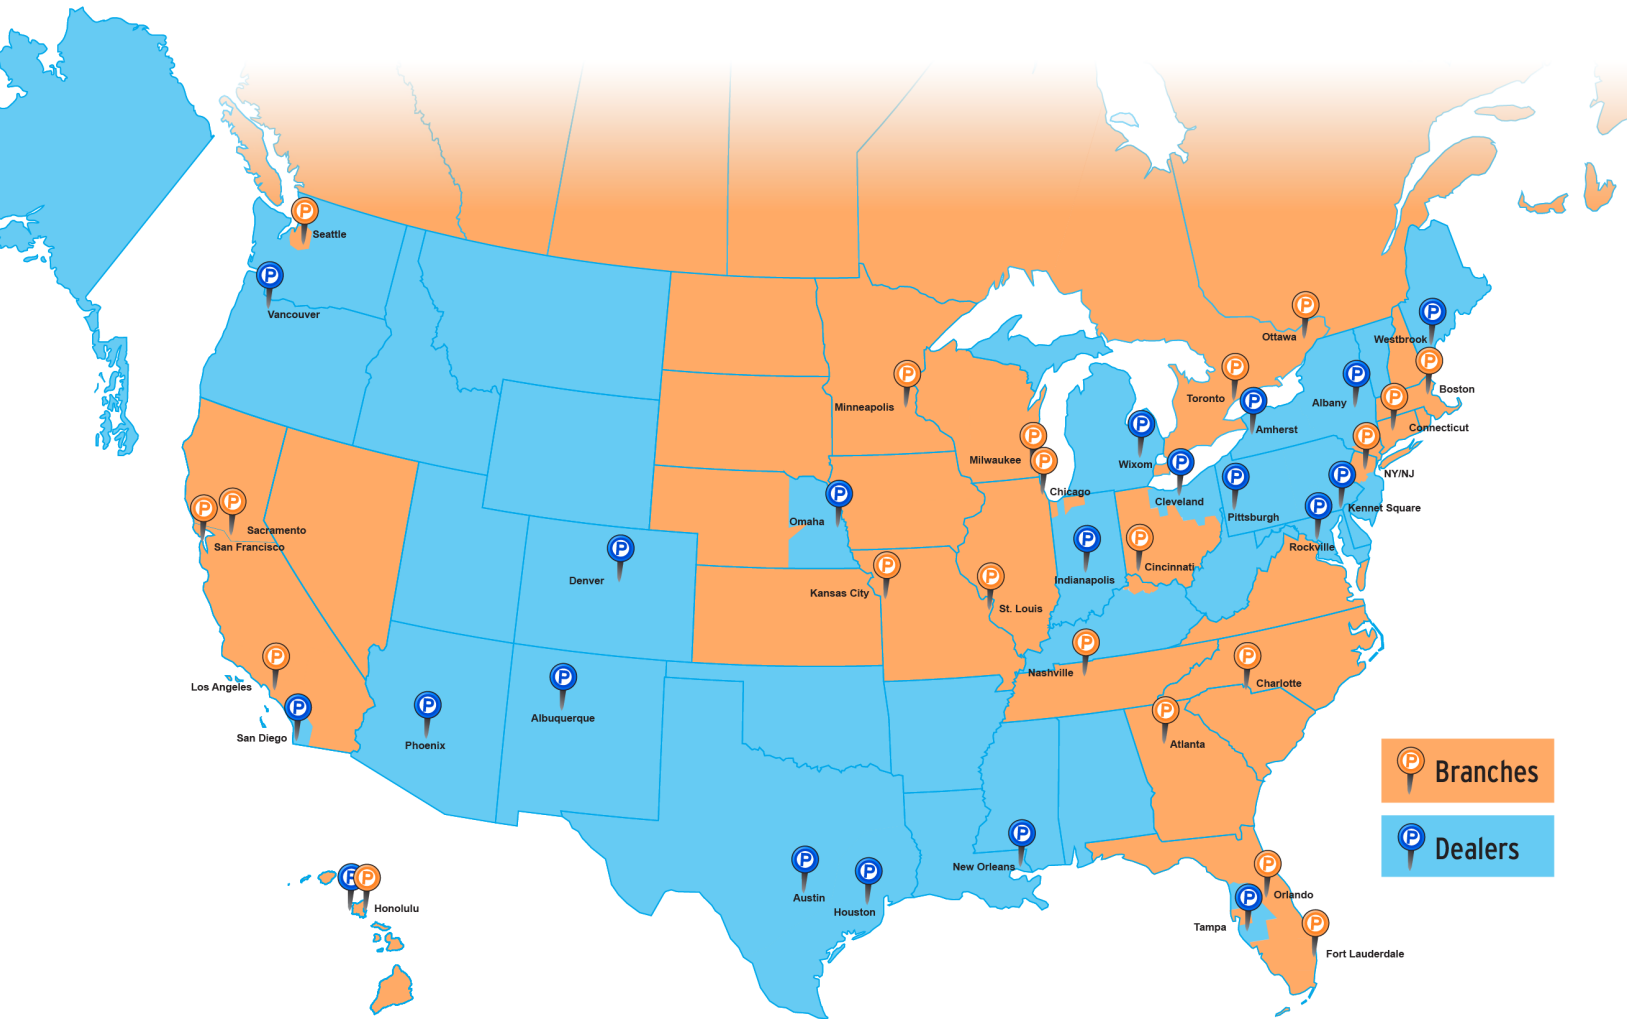

CVPS Valet Software provides mobile and desktop tools designed to enable parking operators to increase revenue, reduce labor and damage claims, and focus on delivering high quality customer service.

Innovative solutions include ticketless valet, photobased vehicle inspection, PCI compliant payment processing, and integrations with PARCS, hotel, and casino management systems.
