# CVPS Cash

CVPS Cash Stations have the smallest footprint of any cash-handling pay-on-foot station in the industry. CVPS Cash processes 2D barcode tickets, supports ticketless and credit card payment, and accepts bank notes for cash transactions. Payment options include validations, credit card, mobile payment, and bank notes. Intuitive user guidance is provided through a large, touchscreen display with built-in camera and IP intercom for call center capability.

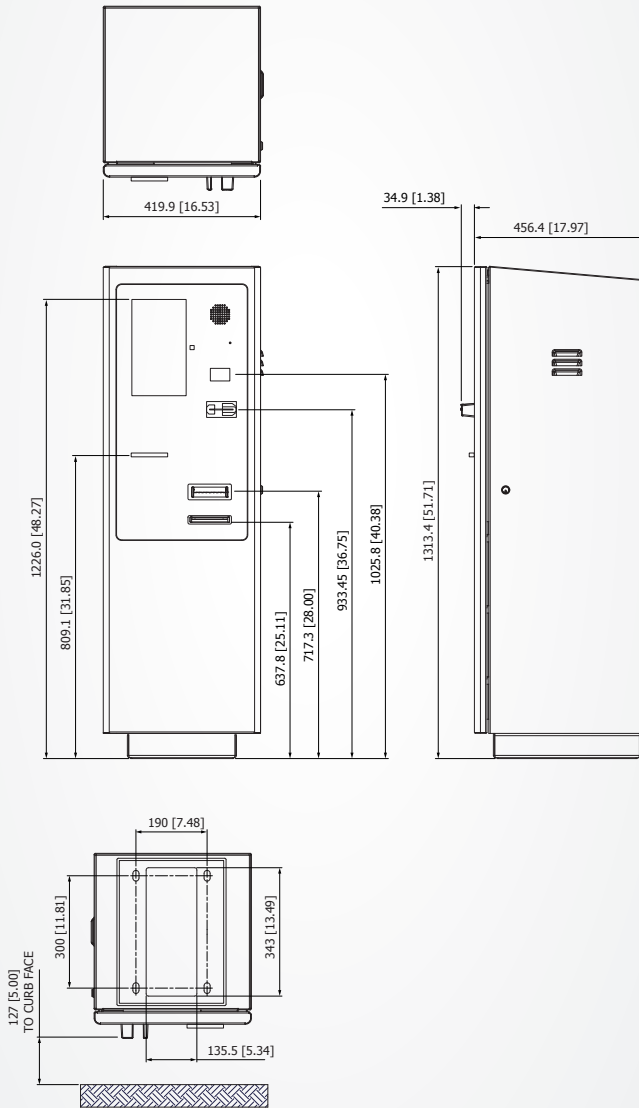

## Features

- Banknote recycler
- 2D barcode system
- P2PE credit card options
- Bluetooth reader options
- TCP/IP network connectivity
- Optional cellular backup
- Modular USB components for easy service
- Intercom and camera for built-in call center
- LPR capability
- Textured powder coat finish
- Small footprint
- Customizable faceplates
- Communicates with CVPS cloud-based software
